

SHARON PRINCE U

Software Engineer | Full Stack Developer

sharonprinceu@gmail.com • +91 9994145674 • Coimbatore, Tamil Nadu • github.com/SHARON1609 • linkedin.com/in/sharon-prince-u

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in full-stack development, backend systems, AI-powered applications, and IoT solutions. Proficient in Java, React.js, Node.js, Express.js, PostgreSQL, and Machine Learning fundamentals. Strong foundation in DSA, OOP, DBMS, and REST APIs. Passionate about building scalable software solutions and leveraging AI to solve real-world problems in collaborative, fast-paced environments.

TECHNICAL SKILLS

Languages: Java, Python, C, SQL, JavaScript

Web: React.js, Node.js, Express.js, HTML5, CSS3

Databases: PostgreSQL, MySQL, Firebase

Tools / Cloud: Git, GitHub, Postman, Render, AWS (Basics), GCP

CS Core: DSA, OOP, DBMS, Operating Systems, Computer Networks, REST APIs, SDLC

INTERNSHIP EXPERIENCE

Full Stack Web Development Intern — Accent Techno Soft

15 Days

- Built a responsive bus booking management system featuring seat selection, authentication, booking history, and ticket management.
- Developed React.js UI components and integrated REST APIs for seamless backend data operations.
- Led feature integration as project lead and improved application performance through debugging and testing.

Full Stack Web Development Intern — DaacoWorks Technologies

30 Days

- Developed an IoT device and gateway management platform with real-time dashboards for device tracking and sensor monitoring.
- Built backend services using Node.js, Express.js, and PostgreSQL and integrated REST APIs for live data communication.
- Managed version control using Git/GitHub and coordinated module development across the team.

PROJECTS

Fashion Stylist | *Python, Machine Learning, React.js*

- Developed an AI-powered fashion recommendation system that suggests personalized outfits based on users' skin tone and body type.
- Implemented machine learning-based classification and recommendation logic to improve styling accuracy and user experience.
- Designed an interactive interface enabling users to receive customized outfit suggestions and fashion insights in real time.

Smart Home Gardening System | *React Native, Firebase, Node.js, IoT Sensors*

- Built an IoT-enabled mobile application for plant monitoring that tracks soil moisture, temperature, and humidity in real time.
- Integrated Firebase for cloud synchronization and implemented automated watering alerts and scheduling through a mobile-friendly interface.

Anomaly Detection System for IoT Devices | *Python, Machine Learning, SQL*

- Engineered a Python-based machine learning anomaly detection engine to identify irregular patterns in IoT sensor streams.
- Designed data ingestion and preprocessing pipelines and improved fault detection accuracy through anomaly classification techniques.

EDUCATION

B.E. – Computer Science and Engineering

2023 – 2027

Higher Secondary Education

2021 – 2023

CERTIFICATIONS

PrepInsta: DSA in C & Python, Java Programming, Cloud Computing Fundamentals • IBM Design Thinking Practitioner • Microsoft Fundamental AI Concepts • VR/AR Workshop — Bannari Amman Institute of Technology

ADDITIONAL

Soft Skills: Problem Solving, Team Collaboration, Leadership, Communication, Analytical Thinking • **Languages:** English (Fluent), Tamil (Native), German (Basic)
